

Delightful second-hand car leasing for SMBs

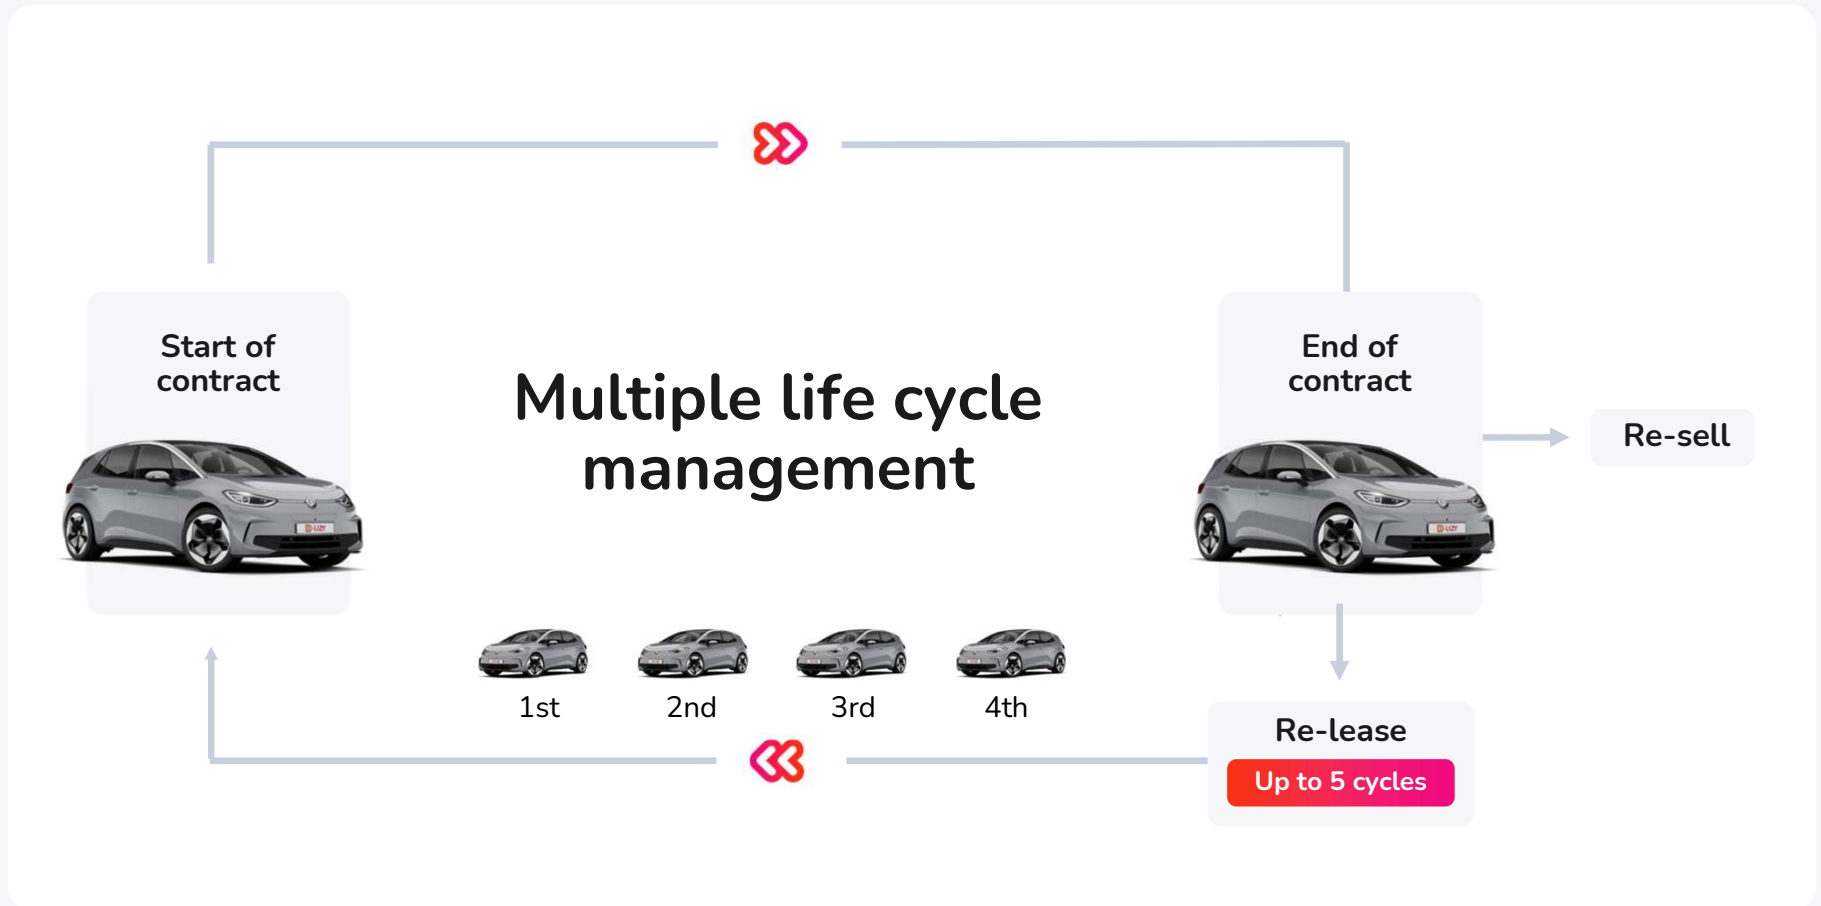

Lightning **fast rise** of electric vehicles in Europe

Source: IEA, in millions of vehicles

Multi life cycle leasing is the **future**

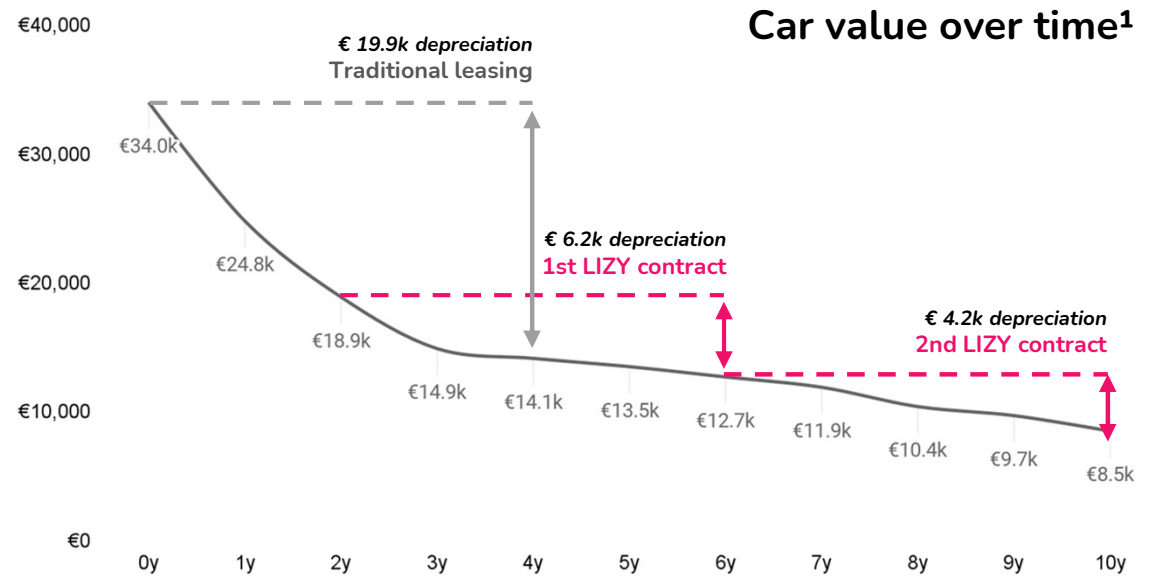

Operating further on the RV curve makes EV's **accessible** to everyone

Example for **Volkswagen ID.3**

4y Contract

20k km p. year

1) Source: DAT

Multi-cycle leasing will drive **market growth**

Longer BEV lease cycles lead to higher leasing adoption

- **BEVs can be leased ~2-3x longer than ICE**
- This enables **2-3 leasing cycles per car** vs. 1
- Therefore leasing of 5-8+ year-old cars will increase, **unlocking strong market growth**

Customer concerns lead to higher leasing penetration for BEVs

- **Customers worry** about batteries and resale value
- **Leasing eliminates those concerns**
- Leasing penetration is ~2-3x higher for BEVs vs. ICE (eg in BE >80%) **leading to strong market growth**

Higher leasing adoption and penetration will create a huge opportunity for multi-cycle leasing

LIZY

LIZY offers digital used-car leasing for SMBs

We are reinventing company car leasing

Affordable

Save € 1.000+ per year by using nearly new vehicles with avg. 10k km

Easy

Order your leasing car like you order shoes on Zalando

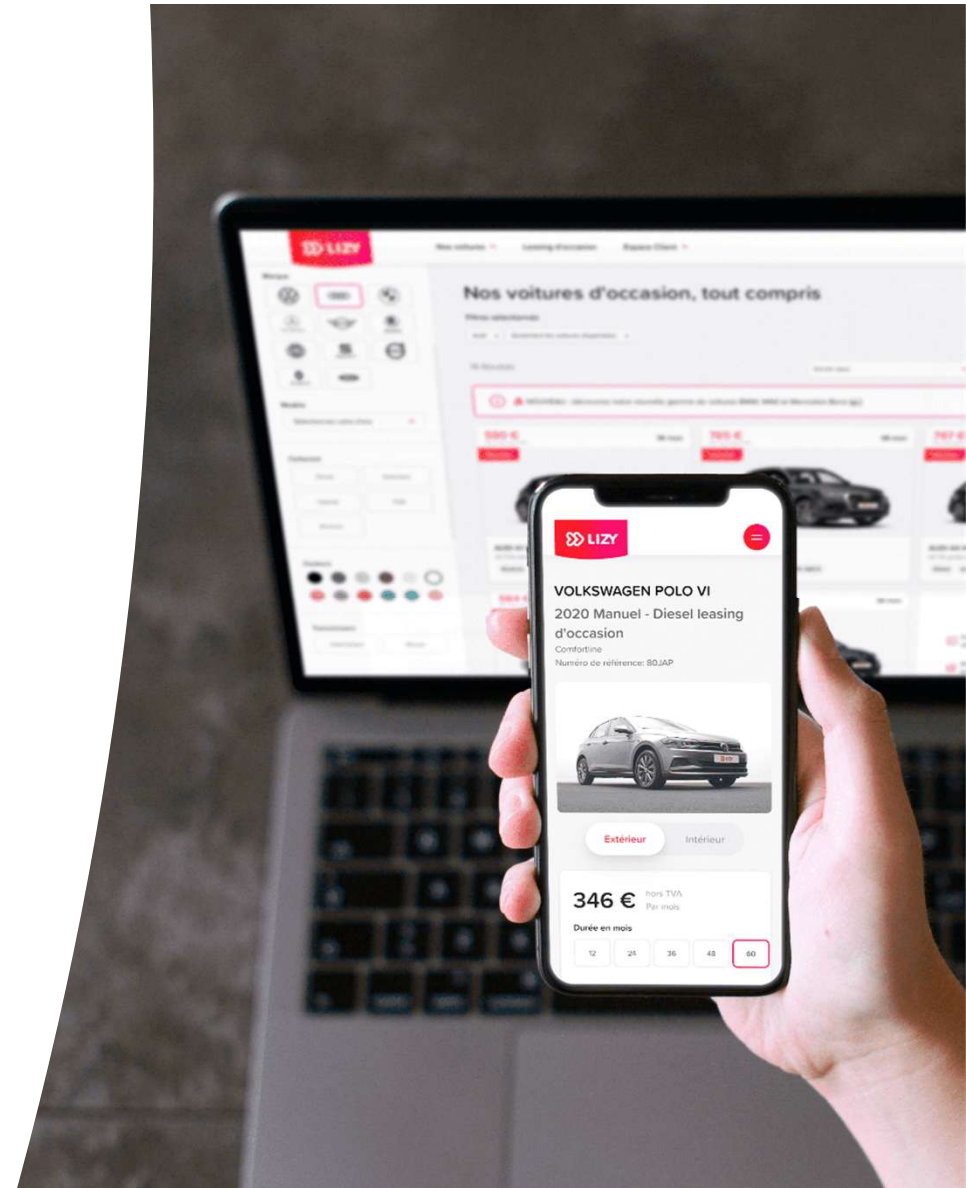

Fast

No more 6 to 12 month delivery delays. Home delivery in 3 weeks or less

Sustainable

Used cars are way more sustainable than new cars

LIZY is on track to become the leader in **used car leasing** in Europe

#1 in used-car leasing in Belgium

100% YoY revenue growth in 2024
Strong market leader position

Successful international expansion

300% YoY growth in France in 2025
50% QoQ growth in Netherlands in 2025

Clear ambition to become a European leader

Digital and scalable infrastructure built for easy European roll-out
From green light to launch: <4 months FR, <3 months NL
